Body Shape & Position of the Measuring Tape

Determination of Sizes

A	Height measured without shoes from the top of the head to the floor standing straight	
B	Chest girth horizontal girth measured round the body, across the strongest part of the chest	
C	Waist girth horizontal girth measured round the waist	
D	Waistband girth horizontal girth measured round the strongest part of the stomach, i.e. there where the waistband is worn	
E	Hip girth horizontal girth measured round the strongest part of the buttocks	
F	Outside arm length measured with a slightly bent arm from arms-cye to wrist	
G	Side length measured without shoes from waist to soles of the feet	
H	Inside leg length measured without shoes from crotch to soles of the feet	

All measurements are body measurements!
Special sizes and customisations are non-returnable.
